

## **Auburn takes notice of Alabama Alpha's Leaders**

2/11/2010  
Auburn, AL

### **SigEp Honored with President and Advisor of the Year Awards**

**Tyler Stephens**, former Chapter President, and Dr. John "Doc" Cottier Jr., current Chapter Advisor both epitomize the principles of Virtue, Diligence, and Brotherly Love as well as Leadership. These individuals received the honor of Fraternity President of the year and Chapter Advisor of the year respectively for 2009.

When asked what this honor meant to him **Stephens** said, "I think it means we are moving forward as a chapter, and not only are we thinking progressively, but we are acting on it. "

**Stephens** was quick to spread the credit to the entire Executive Board as well as all the brothers, "it shows how strong our leadership is," said **Stephens**.

When asked about who he mirrored his leadership after, "it goes without saying how much Doc impacted me last year, he went from simply being an advisor to being a great friend," said **Stephens**.

Cottier took an equally humble approach to his award, "this award is nice to have," he said.

Cottier also had a lot to say about **Stephens'** award, "he really did an excellent job. He did much more than I did to win an award, especially being under so much pressure," said Cottier.

These two men have a great respect for each other but an even greater respect for Sigma Phi Epsilon. They truly give tirelessly of their time and effort for the betterment of the fraternity; these awards were given to brothers who were not looking for personal gain, rather, for brothers that want the best for their fraternity. This is a new chapter in the long life of Alabama Alpha and certainly makes the future look bright.
